**Re Item V.**

- D1: US-A-5 665 719 (PETTIBONE DOUGLAS J ET AL) 9 September 1997 (1997-09-09)
- D2: WO 01/85725 A (FEENSTRA ROELOF W ; LONG STEPHEN K (NL); HEIJDEN JOHANNES A M V D (NL)) 15 November 2001 (2001-11-15)

- D4: US-B-6 225 3121 (KRUSE CORNELIS GERRIT ET AL) 1 May 2001 (2001-05-01)
- D5: EP-A-1 242 396 (ASTRAZENECA AB) 25 September 2002 (2002-09-25)

**Novelty**

The compounds of the present claim 1, 42 differ from those of the amended claims through the possible substituents of the aliphatic group in the definition of W, Wb.

The subject matter of the present claim 1 and 42 is regarded as a novel selection from the general disclosures of D1.

The compounds of the present claims differ those of D2 to D5 through the presence of the SO<sub>2</sub> moiety at the 1 position of the piperidine ring.

The "subsequent medical use claim 21" is novel vis-avis D1 through the pathological conditions listed

**Inventive Step**

The closest prior art is considered to be D4, since this discloses benzoxazinone compounds, which may be substituted inter alia by piperidine moieties and which are indicated as being active as 5-HT<sub>1A</sub> receptors.

The problem underlying the present application is the provision of compounds which are

REPORT ON PATENTABILITY  
(SEPARATE SHEET)**

PCT/EP2004/008507

useful in the treatment of certain disorders related to 5HT<sub>6</sub> receptor regulation.

The skilled person could not have arrived at the claimed subject matter from D4 in view of the structural differences between the claimed compounds and those of D4 (cf point of attachment of piperidine to the nitrogen of the benzoxazine ring and presence of the SO<sub>2</sub> group).

An inventive step can therefore be acknowledged

**VII.**

Contrary to the requirements of Rule 5.1(a)(ii) PCT, the relevant background art disclosed in the documents D1 to D5 is not mentioned in the description, nor are these documents identified therein.

**VIII**

The term "preferably" used in the claims has no limiting effects on the claims.

The description is not adapted to the present claims.

\*\*\*\*\*

The reasons for the provisos in the present claim 1 are at present unclear, and it may be necessary for the Applicant to explain these at the regional stage of examination.
